## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, drawn to a liquid crystal display with a particular structure in the non-display portion employing an electrode connected through the interlayer insulator, classified in class 349, subclass 149.
- II. Claims 9-19, drawn to a liquid crystal device with an organic insulator and particular electrode configurations of the capacitor/light shield above it, classified in class 349, subclass 138.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as in a device which does not employ a conductor above the interlayer insulator in the non-display region, and invention I can be done without storage capacitors or light shield meeting the claimed limitations. See MPEP § 806.05(d). Because these inventions are distinct for the reasons given above and the search required for Group I in the connector areas is not required for Group II, and the search for group II in the capacitor and light shield areas is not required for group I, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth A Parker whose telephone number is 703-305-6202. The examiner can normally be reached on 9:30-6:00.
